—— Entdeckung eines neuen Cometen [1885 II]. Astr. Nachr., 112, **1885**, 139–140; 4, **1885**, 179–180.
— Observations of Comet 1885...(Barnard) made at the Vanderbilt University Observatory, Nashville, Tenn. Astr. Nachr., 112, **1885**, 371–372; Sidereal Messenger, 4, **1885**, 217, 252–253.
—— Beobachtungen des Cometen 1885...(Brooks). At the Vanderbilt University Observatory in Nashville, Tenn. Astr. Nachr., 112, **1885**, 375–376.
—— Small nebula near great Andromeda nebula. Astr. Nachr., 112, **1885**, 391–392; 113, **1886**, 31–32, 47–48; Sidereal Messenger, 4, **1885**, 247, 315–316.
—— Ueber den neuen Stern im grossen Andromeda-Nebel. Astr. Nachr., 112, **1885**, 403; Sidereal Messenger, 4, **1885**, 240–243, 308–309.
—— The aurora of March 15, 1885. Nature, 32, **1885**, 78.
—— Encke's Comet. Observatory, London, 8, **1885**, 122–123.
—— New nebulæ. Observatory, London, 8, **1885**, 123.
—— Comet II. 1884 (Barnard). Observatory, London, 8, **1885**, 161–162.
—— Spots on Jupiter. Observatory, London, 8, **1885**, 211–212.
—— Changes in the length of the great red spot on Jupiter. Observatory, London, 8, **1885**, 244–245.
—— The Comet of 1812 (Pons-Brooks). Observatory, London, 8, **1885**, 325–327.
— Comet Brooks (1885 *b*). Observatory, London, 8, **1885**, 362–364.
—— New nebulæ in Eridanus. Sidereal Messenger, 4, **1885**, 53.
—— [Astronomical notes. Jupiter's satellite IV. "Gegenschein." Aurora borealis. Nebulæ, new and old. New nebula. Note on G. C. 1409.] Sidereal Messenger, 4, **1885**, 124–125.
—— [Observations on the black transit of Jupiter's III satellite made at the Vanderbilt University Observatory, Nashville, May 1885.] Sidereal Messenger, 4, **1885**, 158.
—— Astronomical Notes. [Comet Barnard. The August meteors. Nebulæ. Large nebula not in G. C.] Sidereal Messenger, 4, **1885**, 222–223.
—— The great nebula in Monoceros. Sidereal Messenger, 4, **1885**, 313–314.
—— Entdeckung [eines neuen] Cometen [1886 II]. Astr. Nachr., 113, **1886**, 119–120.
—— Beobachtungen des Cometen 1886...(Finlay). Auf der Sternwarte der Vanderbilt University in Nashville, Tenn. Astr. Nachr., 115, **1886**, 267–268.
—— A correction to Dr. Swift's list of new nebulæ in A. N. 2746. Astr. Nachr., 115, **1886**, 315–316.
—— Ring-micrometer observations of comets and nebulæ made with the 6-inch Cooke equatorial of the Vanderbilt University Observatory. Astr. Nachr., 115, **1886**, 323–328.
—— Brooks' second Comet, 1886. Observatory, London, 9, **1886**, 278.
—— Comet Barnard (II) 1885 D. Sidereal Messenger, 5, **1886**, 21–22.
—— New nebulæ. Sidereal Messenger, 5, **1886**, 25.
—— An excessively faint nebula. Sidereal Messenger, 5, **1886**, 27.
—— Large nebula in field with General Catalogue 4510. Sidereal Messenger, 5, **1886**, 31.
—— Return of the Biela meteors. Sidereal Messenger, 5, **1886**, 74–79.
—— The Brooks Comet. Sidereal Messenger, 5, **1886**, 89.
—— New nebulous star. Sidereal Messenger, 5, **1886**, 154.
—— Dark transits of Jupiter. [Red spot. Peculiar dark spots at the equator.] Sidereal Messenger, 5, **1886**, 155–156.
—— Position angles of the tail of Comet Fabry. Sidereal Messenger, 5, **1886**, 157.
—— Jupiter. Black transit of satellite IV. Sidereal Messenger, 5, **1886**, 184.
—— Comet Barnard. Sidereal Messenger, 5, **1886**, 190.
—— Observation of Comet *c* (Brooks) 1886. Sidereal Messenger, 5, **1886**, 218.
—— On the nebula 4036 of Herschel's General Catalogue. Sidereal Messenger, 5, **1886**, 255.
—— The new comet [1886 IX]. Sidereal Messenger, 5, **1886**, 275, 310–311.
—— General Catalogue No. 4594. Sidereal Messenger, 5, **1886**, 286.
—— Entdeckung eines neuen Cometen 1887 Jan. 23. Astr. Nachr., 116, **1887**, 143–144; Sidereal Messenger, 6, **1887**, 114–115.
—— Beobachtung des Cometen 1887...(Brooks Jan. 22). Auf der Sternwarte in Nashville. Astr. Nachr., 116, **1887**, 203–204.
—— Entdeckung eines neuen Cometen 1887 Febr. 15. Astr. Nachr., 116, **1887**, 207–208; Sidereal Messenger, 6, **1887**, 161.
—— Ring-micrometer observations of comets made at the Vanderbilt University Observatory, Nashville, Tenn. [1887.] Astr. Nachr., 116, **1887**, 251–252; Astr. Jl., 7, **1888**, 63, 79.
—— Entdeckung eines neuen Cometen 1887 Mai 12. Astr. Nachr., 117, **1887**, 31–32.
—— Ring-micrometer observations of Comet 1887... (Barnard May 12) made at the Vanderbilt University Observatory, Nashville, Tenn. [1887.] Astr. Nachr., 117, **1887**, 57–58, 243–246, 385–388; Astr. Jl., 7, **1888**, 99, 111–112, 112, 126, 168.
—— Orbit of Comet 1887...(Barnard Febr. 16). [1887.] Astr. Nachr., 117, **1887**, 59–60; Sidereal Messenger, 6, **1887**, 161, 222; Astr. Jl., 7, **1888**, 95.
—— Beobachtungen des Olbers'schen Cometen 1887. ... Auf der Sternwarte der Vanderbilt University in Nashville, Tenn. Astr. Nachr., 117, **1887**, 327–328.
—— Ring-micrometer observations of Winnecke's Comet 1886 VI made at the Vanderbilt University Observatory, Nashville, Tenn. Astr. Nachr., 117, **1887**, 337–340.
—— Recent stellar photography. Sidereal Messenger, 6, **1887**, 58–65.
—— Elements of Comet *e* 1887 (Barnard). Sidereal Messenger, 6, **1887**, 220–221.
—— Double meteor. Sidereal Messenger, 6, **1887**, 322.
— Notes on Comet 1886 *f* (Barnard, Oct. 4). [1887.] Astr. Jl., 7, **1888**, 41–43.

—— Ring-micrometer observations of Comet 1887 *f* (Brooks), made at the Vanderbilt University Observatory. [1887.] Astr. Jl., 7, **1888**, 127, 136.
—— Observations of the zodiacal counterglow. [1888–93.] Astr. Jl., 7, **1888**, 186–187; 11, **1892**, 19–20; 13, **1894**, 169–171.
—— Ueber Nr. 14 und 15 des Swift'schen Nebelcatalogs Nr. 6 in A. N. 2798. Astr. Nachr., 118, **1888**, 173–174.
—— Comet *f* 1888 (Barnard). Sidereal Messenger, 7, **1888**, 459; Astr. Nachr., 120, **1889**, 143–144.
—— Observations of the occultation of 47 Libræ by Jupiter, 1888 June 9. [1888.] Astr. Jl., 8, **1889**, 64.
—— Observations...of Comet 1888 *e* (Barnard, Sept. 2). [1888.] Astr. Jl., 8, **1889**, 102, 108–109, 110, 120.
—— Discovery and observations of Comet 1888 *f*. [1888–89.] Astr. Jl., 8, **1889**, 134–135; Astr. Nachr., 120, **1889**, 237–238.
—— On a search for the comet reported 1889 Jan. 15 by Mr. Brooks. Astr. Jl., 8, **1889**, 168.
—— Discovery of a comet, March 31. Astr. Jl., 8, **1889**, 183.
—— Filar-micrometer observations of Comet *b* 1889 (Barnard, March 31) made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 8, **1889**, 183.
—— Drawings of Comet 1888 I. Astr. Nachr., 120, **1889**, 43–44.
—— Observations of Olbers' Comet 1887 V made with the 12-inch equatorial of the Lick Observatory. Astr. Nachr., 120, **1889**, 65–66.
—— Discovery and observations of Comet 1889...(Barnard 1888 Sept. 2). Astr. Nachr., 120, **1889**, 91–92.
—— Discovery and observations of Comet 1889...(Barnard March 31). Astr. Nachr., 121, **1889**, 223–224, 301–302.
—— Filar-micrometer observations of Comet 1889... (Barnard March 31) made with the 12-inch equatorial of the Lick Observatory. [1889.] Astr. Nachr., 121, **1889**, 335–336; Astr. Jl., 9, **1890**, 5–6.
—— Discovery and observations of Comet 1889...(Barnard June 23). Astr. Nachr., 122, **1889**, 115–118.
—— [Beobachtung des Cometen 1889...(Davidson).] [1889.] Astr. Nachr., 122, **1889**, 171–172; Astr. Jl., 9, **1890**, 66–67.
—— Theilung des Cometen 1889...(Brooks Juli 6). Astr. Nachr., 122, **1889**, 191–192.
—— The cluster G. C. 1420 and the nebula N. G. C. 2237. Astr. Nachr., 122, **1889**, 253–254.
—— Discovery and observations of companions to Comet 1889...(Brooks, July 6). [1889.] Astr. Nachr., 122, **1889**, 267–268; Astr. Jl., 9, **1890**, 77–78.
—— Observations of Faye's Comet 1888 IV. [1889.] Astr. Nachr., 122, **1889**, 309–314; Astr. Jl., 9, **1890**, 29–31.
—— The nebula G. C. 2091. Astr. Soc. Month. Not., 49, **1889**, 418–419.
—— New double stars. Astr. Soc. Pacific Publ., 1, **1889**, 38.
—— A very remarkable comet. Astr. Soc. Pacific Publ., 1, **1889**, 72–74.
—— Observations on the near approach of Mars and Saturn on September 19, 1889. Astr. Soc. Pacific Publ., 1, **1889**, 82–83; Sidereal Messenger, 8, **1889**, 428–429.
—— Observations of Jupiter with a five-inch refractor, during the years 1879–86. Astr. Soc. Pacific Publ., 1, **1889**, 89–111.
—— [Solar eclipse of January, 1889.] Report of the photographic operations. Lick Obs. Contrib., 1, **1889**, 56–73.
—— Partial eclipse of the moon, Jan. 16, 1889. Sidereal Messenger, 8, **1889**, 137–138.
—— [Occultations of the planet Jupiter as observed at the Lick Observatory March 23, 1889.] Sidereal Messenger, 8, **1889**, 222–223, 424.
—— Anomalous tail of Comet 1889 I. [1889.] Astr. Jl., 9, **1890**, 32.
—— Discovery and filar-micrometer observations of Comet *c* 1889 (Barnard, June 23), made with the 12-inch equatorial. [1889.] Astr. Jl., 9, **1890**, 47, 55, 86.
—— [Comet *d* 1889.] [1889–91.] Astr. Jl., 9, **1890**, 48; 10, **1891**, 4–6, 136.
—— Filar-micrometer observations of Comet *d* 1889 (Brooks, July 6), made with the 12-inch equatorial of the Lick Observatory. [1889.] Astr. Jl., 9, **1890**, 54–55.
—— [Observation of Comet *d* 1889, at the Lick Observatory.] [1889.] Astr. Jl., 9, **1890**, 64.
—— Comet 1888 V. [1889.] Astr. Jl., 9, **1890**, 87–88.
—— Filar-micrometer observations of Comet *f* 1889 (Swift), made with the 12-inch equatorial of the Lick Observatory. [1889–90.] Astr. Jl., 9, **1890**, 119; 10, **1891**, 7.
—— Filar-micrometer observations of Comets 1889 *f* and *g*, made with the 12-inch equatorial of the Lick Observatory. [1889–90.] Astr. Jl., 9, **1890**, 131, 142.
—— Filar-micrometer observations of Comet *a* 1890 (Brooks, March 19), made with the 12-inch equatorial of the Lick Observatory. [1890–91.] Astr. Jl., 9, **1890**, 189; 11, **1892**, 79.
—— Note on Comet 1889 I. Astr. Nachr., 124, **1890**, 409–410.
—— An unsuccessful search for Brorsen's Comet 1889–90. Astr. Nachr., 125, **1890**, 43–44.
—— Physical and micrometrical observations of the companions to Comet 1889 V (Brooks). Made with the 12-inch and 36-inch refractors of the Lick Observatory. Astr. Nachr., 125, **1890**, 177–196.
—— Note on the nebula G. C. 4036=N. G. C. 5834. Astr. Nachr., 125, **1890**, 315–318.
—— Apparent duplicity of the first satellite of Jupiter. Astr. Nachr., 125, **1890**, 317–318.
—— Auffindung des d'Arrest'schen Cometen auf der Sternwarte Mt. Hamilton. [1890.] Astr. Nachr., 125, **1890**, 367–368; Sidereal Messenger, 9, **1890**, 420; Astr. Jl., 10, **1891**, 92–93.
—— Additional observations of the companion C of Comet 1889 V (Brooks). Astr. Nachr., 125, **1890**, 377–380.
—— A cluster of eighteen small nebulæ discovered with the 36-inch refractor of the Lick Observatory. Astr. Nachr., 125, **1890**, 379–380.
—— Observations of the eclipse of Iapetus in the shadows of the globe, crape ring, and bright ring of Saturn, 1889 November 1. Astr. Soc. Month. Not., 50, **1890**, 107–110.
—— On some celestial photographs made with a large portrait lens of the Lick Observatory. Astr. Soc. Month. Not., 50, **1890**, 310–314.
—— Probable return of Lexell's Comet. Astr. Soc. Pacific Publ., 2, **1890**, 21–24; Sidereal Messenger, 9, **1890**, 116–119.
—— Occultations of stars at the dark limb of the moon, observed with the twelve-inch equatorial. Astr. Soc. Pacific Publ., 2, **1890**, 24.
—— On the photographs of the Milky Way made at the Lick Observatory in 1889. Astr. Soc. Pacific Publ., 2, **1890**, 240–244.
—— Observations of small spots on Jupiter. Astr. Soc. Pacific Publ., 2, **1890**, 247–248.
—— On a black transit of the IV satellite of Jupiter, observed on August 13, 1890, with the twelve-inch equatorial of the Lick Observatory. Astr. Soc. Pacific Publ., 2, **1890**, 252–256.
—— Dark transit of the III satellite of Jupiter. Astr. Soc. Pacific Publ., 2, **1890**, 292–294.
—— The longest known duration of visibility of a comet, I 1889. Sidereal Messenger, 9, **1890**, 276–277.
—— The lunar appulse of 1890 June 2. [1890.] Astr. Jl., 10, **1891**, 31.
—— Comets 1889 I and II, and some suggestions as to the possibility of seeing the short-period comets at aphelion. [1890.] Astr. Jl., 10, **1891**, 67–68.
—— Filar-micrometer observations of Comet *d* 1890 (Barnard, Oct. 6), made with the 12-inch equatorial of the Lick Observatory. [1890.] Astr. Jl., 10, **1891**, 88.

—— Filar-micrometer observations of Comet *c* 1890 (Denning), made with the 12-inch equatorial of the Lick Observatory. [1890.] Astr. Jl., 10, **1891**, 95–96, 104.

—— Filar-micrometer observations of Comet *b* 1890 (Coggia), made from the 12-inch equatorial of the Lick Observatory. [1890.] Astr. Jl., 10, **1891**, 100.

—— Filar-micrometer observations of Comet *e* 1890 (Zona, Nov. 15), made with the 12-inch equatorial of the Lick Observatory. [1890–91.] Astr. Jl., 10, **1891**, 110, 127, 151.

—— On the reobservations of Comet 1889 V (Brooks, July 6, 1889), made with the 36-inch equatorial of the Lick Observatory. [1890.] Astr. Jl., 10, **1891**, 111, 136.

— Comets *e* 1890 (Zona, Nov. 15) and *f* 1890 (Spitaler, Nov. 16). [1890.] Astr. Jl., 10, **1891**, 120.

—— Filar-micrometer observations of Comet *f* 1890 (Spitaler, Nov. 16), made with the 12-inch equatorial of the Lick Observatory. [1890.] Astr. Jl., 10, **1891**, 125; 11, **1892**, 24.

— Strange astronomical coincidence. [1890.] Sidereal Messenger, 10, **1891**, 18–19.

— Observations of Comet *f* 1890 (Spitaler, Nov. 16), made with the 12-inch and 36-inch refractors of the Lick Observatory. Astr. Jl., 10, **1891**, 148.

—— Discovery and observations of Comet *a* 1891. Astr. Jl., 10, **1891**, 190.

—— Observations of (181) Eucharis, and of some small stars near the path of Eucharis, and of a new nebula. Astr. Nachr., 126, **1891**, 53–56; 128, **1891**, 199–200.

—— Filar-micrometer observations of Comet 1889 V (Brooks) made with the 36-inch refractor of the Lick Observatory. Astr. Nachr., 126, **1891**, 137–138.

—— A new planetary nebula. Astr. Nachr., 126, **1891**, 277–278.

—— On the nebulosities of the Pleiades and on a new Merope nebula. Astr. Nachr., 126, **1891**, 293–294.

—— Observations of Venus near inferior conjunction made with the 12-inch equatorial and its 3¼-inch finder. Astr. Nachr., 126, **1891**, 295–296.

—— Neuer Comet 1891... (Barnard-Denning). Astr. Nachr., 127, **1891**, 45–46.

—— The new Merope nebula. [Reply to Prof. Pritchard.] Astr. Nachr., 127, **1891**, 135–136.

— Wiederauffindung [und Beobachtungen] des Wolf'schen Cometen 1884 III in seiner zweiten Erscheinung 1891.... [1891–92.] Astr. Nachr., 127, **1891**, 149–150, 367–368; Astr. Jl., 11, **1892**, 13; 12, **1893**, 87–88.

—— On an early search for Winnecke's Comet before perihelion. Astr. Nachr., 127, **1891**, 231–232.

—— Wiederauffindung des Encke'schen Cometen in seiner Erscheinung 1891.... Astr. Nachr., 128, **1891**, 47–48, 111–112.

—— Auffindung des periodischen Cometen Tempel-Swift (1891...) auf der Sternwarte Mt. Hamilton. [1891.] Astr. Nachr., 128, **1891**, 237–238; Astr. Jl., 11, **1892**, 62.

— — Entdeckung eines Cometen [1891 IV] auf der Sternwarte Mount Hamilton. [1891.] Astr. Nachr., 128, **1891**, 239–240; Astr. Jl., 11, **1892**, 63–64.

—— Remarkable spots on the planet Jupiter. Astr. Nachr., 128, **1891**, 291–292.

—— Observations of the difference of declination of 21 Asterope und 22 Asterope, at the transit of Wolf's Comet 1891 Sep. 3. Astr. Nachr., 128, **1891**, 425–428.

— — Observations of the planet Jupiter and his satellites during 1890 with the 12-inch equatoreal of the Lick Observatory. Astr. Soc. Month. Not., 51, **1891**, 543–555.

— Note on the first satellite of Jupiter. Astr. Soc. Month. Not., 51, **1891**, 556.

— On the phenomena of the transits of the first satellite of Jupiter. Astr. Soc. Month. Not., 51, **1891**, 557–558.

—— Observations of the contacts, diameter and position of Mercury at the transit of May 9, 1891, at Mt. Hamilton. Astr. Soc. Pacific Publ., 3, **1891**, 230–233.

—— Note on the visibility of Mercury during transit. Astr. Soc. Pacific Publ., 3, **1891**, 233–234.

—— [Lunar eclipse of July 22, 1888.] Observations. Lick Obs. Contrib., 2, **1891**, 117–121.

—— Observations of Venus near inferior conjunction in the first part of December. Sidereal Messenger, 10, **1891**, 43.

—— The re-discovery of Wolf's periodic Comet. Sidereal Messenger, 10, **1891**, 287–288.

—— Observations of the Transit of Mercury May 9, 1891, made with the 12-inch equatorial of the Lick Observatory. Sidereal Messenger, 10, **1891**, 291.

—— Photographing with a non-photographic telescope. Sidereal Messenger, 10, **1891**, 331–335.

—— Relative motions of the spots and markings on the surface of Jupiter, from micrometrical observations made at the Lick Observatory. Sidereal Messenger, 10, **1891**, 413–415.

—— Note on the August meteors. Sidereal Messenger, 10, **1891**, 470–471.

—— Observations of Comet 1889 V (Brooks), made with the 36-inch refractor. And on the extended visibility of three small comets of 1889. [1891.] Astr. Jl., 11, **1892**, 5.

—— Filar-micrometer observations of Comet [1889 V] (Brooks), made with the 36-inch equatorial of the Lick Observatory. [1891.] Astr. Jl., 11, **1892**, 5, 168.

—— Observations of d'Arrest's Comet, 1890 V. [1891.] Astr. Jl., 11, **1892**, 6–7.

—— Rediscovery and observations of Encke's periodic Comet. The nebula N. G. C. 1514. [1891.] Astr. Jl., 11, **1892**, 36–37.

—— Measures of the position-angles of the rings of Saturn. [1891.] Astr. Jl., 11, **1892**, 42–43.

—— On a classification of the periodic comets by their physical appearance. [1891.] Astr. Jl., 11, **1892**, 46.

—— Comet 1889 I. [1891.] Astr. Jl., 11, **1892**, 51–54.

—— Filar-micrometer observations of Comet 1889 IV, made with the 12-inch equatorial of the Lick Observatory. [1891.] Astr. Jl., 11, **1892**, 75.

—— Colour changes in the markings on the surface of the planet Jupiter. [1891.] Astr. Soc. Month. Not., 52, **1892**, 6–7.

—— Observations of the spots and markings on the planet Jupiter, made with the twelve-inch equatoreal of the Lick Observatory. [1891.] Astr. Soc. Month. Not., 52, **1892**, 7–16.

—— Observations of the partial phase of the total eclipse of the moon November 15, 1891. Astr. & Astrophys., 11, **1892**, 92–93.

—— Disappearance of the new red spot on Jupiter; the great red spot and other Jovian phenomena. Astr. & Astrophys., 11, **1892**, 93.

—— Transparency of the crape ring of Saturn, and other peculiarities as shown by the observations of the eclipse of Japetus on November 1st, 1889. Astr. & Astrophys., 11, **1892**, 119–123.

—— Observations and photographs of Swift's comet of March 6, 1892. Astr. & Astrophys., 11, **1892**, 386–388.

—— Aurora at Mt. Hamilton [May 18 and June 26]. Astr. & Astrophys., 11, **1892**, 539, 633.

—— Preliminary remarks on the observation of Mars 1892, with the 12-in. and 36-in. refractor of the Lick Observatory. Astr. & Astrophys., 11, **1892**, 680–684.

—— Recent observations of Jupiter, the great red spot and its changes. Astr. & Astrophys., 11, **1892**, 686–688.

— An account of the discovery of a fifth satellite to Jupiter. Astr. & Astrophys., 11, **1892**, 749–750; Astr. Nachr., 130, **1892**, 375–376.

—— Nova Aurigæ a nebula. Astr. & Astrophys., 11, 1892, 751; Astr. Nachr., 130, 1892, 407–408.
—— Filar-micrometer observations of Comet *a* 1892 (Swift), made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 11, 1892, 158.
—— Filar-micrometer observations of Comet *c* 1892 (Denning), made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 11, 1892, 160.
—— A new nebula. Astr. Jl., 11, 1892, 168; 12, 1893, 16.
—— Comet 1892... (Swift März 6). Astr. Nachr., 129, 1892, 119–120.
—— Two probably variable nebulæ. Astr. Nachr., 130, 1892, 7–8.
—— The lunar craters Alpetragius and Thales. Astr. Nachr., 130, 1892, 7–10.
—— A simple and rapid method of detecting changes on celestial photographs due to motion or variability of the celestial bodies. Astr. Nachr., 130, 1892, 77–78.
—— A new nebulous star, and corrections to Dreyer's NGC. Astr. Nachr., 130, 1892, 77–80.
—— The nebula (1892.0): $23^h\ 0^m\ 40^s.7 + 59°\ 39'.7$. Astr. Nachr., 130, 1892, 223–224.
—— Photographic nebulosities and groups of nebulous stars. Astr. Nachr., 130, 1892, 233–234.
—— Ueber die Nova Aurigæ. Astr. Nachr., 130, 1892, 344; Astr. Soc. Month. Not., 53, 1893, 35.
—— On the pheuomenon of the transit of the first satellite of Jupiter 1890 September 8, and observations of the red spots on the planet. Astr. Soc. Month. Not., 52, 1892, 156–157.
—— Observations of the reappearance of the rings of Saturn; observations of the position-angles of the rings, and observations of the satellites. Astr. Soc. Month. Not., 52, 1892, 419–423.
—— Some further observations of the fifth satellite of Jupiter. Observatory, London, 15, 1892, 425–427.
—— Discovery and observations of a fifth satellite to Jupiter. [1892.] Astr. Jl., 12, 1893, 81–85, 176.
—— Occultation of Mars and Jupiter by the moon in September. [1892.] Astr. Jl., 12, 1893, 91.
—— Photographic discovery and visual observations of a comet. [1892.] Astr. Jl., 12, 1893, 102, 144.
—— Note on the period of the fifth satellite of Jupiter. [1892–93.] Astr. Jl., 12, 1893, 103–104; Astr. & Astrophys., 12, 1893, 788–789; Astr. Jl., 13, 1894, 141–142.
—— Filar-micrometer observation of Comet *e* 1892 (Barnard, Oct. 12), made with the 12-inch equatorial of the Lick Observatory. [1892.] Astr. Jl., 12, 1893, 112, 120.
—— [Observations of Comet *f* 1892 (Holmes).] At the Lick Observatory. [1892.] Astr. Jl., 12, 1893, 126–127.
—— Photographic and visual observations of Comet *f* 1892 (Holmes). [1892.] Astr. Jl., 12, 1893, 127.
—— Filar-micrometer observations of Comet *f* 1892 (Holmes, Nov. 6), made with the 12-inch equatorial of the Lick Observatory. [1892.] Astr. Jl., 12, 1893, 149, 176.
—— Discovery of a comet [1892 V] by photography. [1892–95.] Astr. Soc. Month. Not., 53, 1893, 36; Astr. Nachr., 131, 1893, 63–64; Observatory, London, 16, 1893, 92–95; Popular Astr., 3, 1896, 13–14.
—— Note on the period and distance of the fifth satellite of Jupiter. [1892–94.] Astr. Soc. Month. Not., 53, 1893, 36–37; Astr. & Astrophys., 13, 1894, 556–557.
—— Remarkable transformation of Holmes' Comet. Astr. & Astrophys., 12, 1893, 180–182.
—— Blueness of the sky at high altitudes. Astr. & Astrophys., 12, 1893, 750–751.
—— On a wind screen for large refractors. Astr. & Astrophys., 12, 1893, 762–763.
—— Photographs of Brooks' Comet. [1893.] Astr. & Astrophys., 12, 1893, 937; Astr. Jl., 13, 1894, 157; Popular Astr., 1, 1894, 145–147.
—— November meteors. [1893.] Astr. & Astrophys., 12, 1893, 938; Popular Astr., 1, 1894, 192.
—— Observations of Comet *e* 1892 (Barnard), made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 12, 1893, 157–158.
—— Micrometer measures of the fifth satellite of Jupiter, made with the 36-inch equatorial of the Lick Observatory. Astr. Jl., 12, 1893, 161–174; 13, 1894, 134.
—— Filar-micrometer observations of Comets *g* and *f* 1892, made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 12, 1893, 175.
—— East elongations of Jupiter's fifth satellite. Astr. Nachr., 131, 1893, 135–136.
—— Visual observations of Nova Aurigæ since its reappearance in August 1892. Astr. Nachr., 131, 1893, 377–382.
—— Micrometric observations of the satellite of Neptune, made with the 36-inch refractor of the Lick Observatory. [1893.] Astr. Jl., 13, 1894, 10–12.
—— Observations of Comet *c* 1893 (Brooks), made with filar-micrometer of 12-inch equatorial of the Lick Observatory. [1893.] Astr. Jl., 13, 1894, 157.
—— Filar-micrometer observations of Comet *c* 1893 (Brooks, Oct. 16), made with the 12-inch equatorial of the Lick Observatory. [1893.] Astr. Jl., 13, 1894, 165.
—— Jupiter's fifth satellite. [1893.] Popular Astr., 1, 1894, 76–82.
—— Photographic nebulosities and star clusters connected with the Milky Way. Astr. & Astrophys., 13, 1894, 177–183.
—— On the forms of the discs of the satellites of Jupiter as seen with the 36-inch equatorial of the Lick Observatory. Astr. & Astrophys., 13, 1894, 272–278.
—— On the diameters of Ceres, Pallas and Vesta. Astr. & Astrophys., 13, 1894, 341–344.
—— Photographs of Gale's Comet. Astr. & Astrophys., 13, 1894, 421–423.
—— Recent observations of the satellites of Jupiter. Astr. & Astrophys., 13, 1894, 438–441.
—— Proper motion of stars in the dumb-bell nebula. Astr. & Astrophys., 13, 1894, 445–447.
—— Preliminary note on the observations of Saturn and Uranus with the 36-in. equatorial. Astr. & Astrophys., 13, 1894, 557–559.
—— Photograph of Swift's nebula in Monoceros, N. G. C. 2237. Astr. & Astrophys., 13, 1894, 642–644.
—— Observations of the partial eclipse of the moon, September 14th, 1894. Astr. & Astrophys., 13, 1894, 705–706.
—— The great red spot and other markings on Jupiter. [1894.] Astr. & Astrophys., 13, 1894, 736–738; Popular Astr., 2, 1895, 129–131.
—— On the exterior nebulosities of the Pleiades. Astr. & Astrophys., 13, 1894, 768–770; Astr. Nachr., 136, 1894, 193–194.
—— Photographs of a remarkable comet. Astr. & Astrophys., 13, 1894, 789–791.
—— Photograph of M 8, and the Trifid nebula. Astr. & Astrophys., 13, 1894, 791–793.
—— The great photographic nebula of Orion encircling the belt and Theta nebula. [1894.] Astr. & Astrophys., 13, 1894, 811–814; Popular Astr., 2, 1895, 151–154.
—— The form of the disc of the III satellite and phenomena of the occultation of a satellite of Jupiter. Astr. & Astrophys., 13, 1894, 821–823.
—— The Lick observations of Comet 1892 V. Astr. Jl., 13, 1894, 204–205.
—— On a small nebula close to M. 57. Astr. Nachr., 134, 1894, 129–130.
—— On an explanation of the double transit of Jupiter's first satellite. Astr. Nachr., 134, 1894, 229–232.
—— Micrometrical observations of Nova (T) Aurigæ with

the 36-inch equatorial of the Lick Observatory. Astr. Nachr., 135, 1894, 385–390.
—— Observations of (181) Eucharis. Astr. Nachr., 136, 1894, 31–32.
—— Le premier satellite de Jupiter, constitution physique et rotation. Astronomie, 1894, 93–95.
—— Sur la forme des satellites de Jupiter. Astronomie, 1894, 303–306.
—— Dimensions des petites planètes, Cérès, Pallas et Vesta. Astronomie, 1894, 306–308.
—— On the dark poles and bright equatorial belt of the first satellite of Jupiter. Astr. Soc. Month. Not., 54, 1894, 134–136.
—— Micrometrical measures of the diameters of Ceres, Pallas and Vesta, made with the 36-inch refractor of the Lick Observatory. Astr. Soc. Month. Not., 54, 1894, 571–573.
— [Transit of Mercury, observed at the Lick Observatory, November 9–10, 1894.] Observations of the contacts. Astr. Soc. Pacific Publ., 6, 1894, 297–298.
—— The Gegenschein or zodiacal counter glow. Popular Astr., 1, 1894, 337–341.
—— Measures of the position of the satellite of Neptune, 1893–4, made with the 36-inch equatorial of the Lick Observatory. [1894.] Astr. Jl., 14, 1895, 9–11.
—— Filar-micrometer observations of Comet *a* 1894 (Denning), made with the 12-inch equatorial of the Lick Observatory. [1894.] Astr. Jl., 14, 1895, 31.
—— Micrometrical observations of the fifth satellite of Jupiter during the opposition of 1893, with measures of diameters of Jupiter, 1892–4, made with the 36-inch equatorial of the Lick Observatory. [1894.] Astr. Jl., 14, 1895, 97–104, 120, 136.
—— The great meteor of July 27, 1894. [1894.] Astr. Jl., 14, 1895, 122.
—— Observations of the fifth satellite of Jupiter, made with the 36-inch equatorial of the Lick Observatory. [1894.] Astr. Jl., 14, 1895, 135.
—— Filar-micrometer measures of the fifth satellite of Jupiter. [1894–96.] Astr. Jl., 14, 1895, 150; 16, 1896, 49–50.
—— Filar-micrometer observations of Comet *e* 1894 (E. Swift, Nov. 20), made with the 12-inch [and 36-inch equatorials] of the Lick Observatory. [1894–95.] Astr. Jl., 14, 1895, 151; 15, 1895, 10.
—— Photographs of the August meteors. [1894.] Popular Astr., 2, 1895, 47.
—— Observations of the Transit of Mercury 1894, Nov. 9–10. [1894.] Popular Astr., 2, 1895, 168–170.
—— Comet *e* 1894 (E. Swift). Astr. Jl., 14, 1895, 166; 15, 1895, 9; Astr. Nachr., 137, 1895, 15–16, 31.
—— Observations of the Transits of Mercury, 1891 May 9, and 1894 November 9–10, made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 14, 1895, 177–180.
—— Note on the nebula Dreyer N. G. C. No. 532. Astr. Jl., 15, 1895, 24.
—— Observations of the diameter of Neptune and of the position of his satellite, made with the 36-inch equatorial of the Lick Observatory. Astr. Jl., 15, 1895, 41–44.
—— Observation 1895 January 27 of the Comet *e* 1894 (Swift), made with the 36-inch refractor of the Lick Observatory. Astr. Jl., 15, 1895, 128.
—— Filar-micrometer observations of Comet *a* 1895 (Swift, Aug. 20), made with the 12-inch equatorial of the Lick Observatory. Astr. Jl., 15, 1895, 143.
—— Observations of the fifth satellite of Jupiter. Astr. Nachr., 137, 1895, 45–46.
—— Filar-micrometer measures of Nova Aurigæ in 1894 made with the 36-in. equatorial of the Lick Observatory. Astr. Nachr., 137, 1895, 233–234.
—— On a great photographic nebula near Antares and on the nebulosity of υ^2 Scorpii, σ^2 Scorpii and the stars BD. −19°.4358–9 and BD. 19°.4361. Astr. Nachr., 138, 1895, 211–214.
—— [Entdeckung eines neuen Cometen Swift Aug. 20.] Astr. Nachr., 138, 1895, 319–320.
—— Photographs of the Milky Way. Astrophys. Jl., 1, 1895, 10–13.
—— Photographs of the Milky Way near 15 Monoceros and near ϵ Cygni. Astrophys. Jl., 2, 1895, 58–59.
—— On a photographic search for a satellite to the moon. Astrophys. Jl., 2, 1895, 347–349.
—— Photograph of the nebula N. G. C. 1499 near the star ξ Persei. Astrophys. Jl., 2, 1895, 350.
—— Celestial photographs with a "magic lantern" lens. Astrophys. Jl., 2, 1895, 351–353.
—— Micrometrical measures of the ball and ring system of the planet Saturn, and measures of the diameter of his satellite Titan. Made with the 36-inch equatorial of the Lick Observatory. Astr. Soc. Month. Not., 55, 1895, 367–382, 493; 56, 1896, 163–172; 57, 1897, 501; Popular Astr., 2, 1895, 295–297.
—— Filar-micrometer measures of the diameters of the four bright satellites of Jupiter, made with the 36-inch equatorial of the Lick Observatory. Astr. Soc. Month. Not., 55, 1895, 382–390.
—— On the variable nebulæ of Hind (N. G. C. 1555) and Struve (N. G. C. 1554) in Taurus, and on the nebulous condition of the variable star T Tauri. Astr. Soc. Month. Not., 55, 1895, 442–452.
—— On a great photographic nebula in Scorpio, near Antares. Astr. Soc. Month. Not., 55, 1895, 453–455.
—— On a photographic study of the earth-lit portion of the new moon. Astr. Soc. Month. Not., 55, 1895, 456.
—— Nearer to the stars. Popular Astr., 2, 1895, 245–248.
—— Nova Aurigæ. Popular Astr., 2, 1895, 307–308.
—— Micrometrical measures of the diameters of the south polar caps of Mars in 1892 and 1894 with the 12-in. and 36-in. refractors and on the diameter and polar compression of the planet. Popular Astr., 2, 1895, 433–443.
—— Micrometrical determinations of the diameters of the minor planets Ceres (1), Pallas (2), Juno (3), and Vesta (4), made with the filar-micrometer of the 36-inch equatorial of the Lick Observatory, and on the albedos of those planets. [1895.] Astr. Soc. Month. Not., 56, 1896, 55–63, [162].
—— On the extended nebulosity about 15 Monocerotis. [1895.] Astr. Soc. Month. Not., 56, 1896, 63–65.
—— Invisibility of Hind's variable nebula (N. G. C. 1555). [1895.] Astr. Soc. Month. Not., 56, 1896, 66–67.
—— The total lunar eclipse of 1895, Sept. 3. [1895.] Popular Astr., 3, 1896, 102–103.
—— Four little sky travelers. [1895.] Popular Astr., 3, 1896, 143–146.
—— Micrometrical observations of the four satellites of the planet Uranus, and measures of the diameters of Uranus, made with the 36-inch refractor of the Lick Observatory in 1894 and 1895. Astr. Jl., 16, 1896, 73–78.
—— Note on the diameters and ellipticity of the planet Uranus. Astr. Jl., 16, 1896, 109.
—— On the new Merope nebula. Astr. Nachr., 139, 1896, 41–42.
—— New planetary nebula. Astr. Nachr., 139, 1896, 43–44.
—— Micrometrical measures of the annular nebula of Lyra (M. 57) made with the 36-inch equatorial of the Lick Observatory. Astr. Nachr., 140, 1896, 283–286.
—— Note on Saturn. Astr. Nachr., 141, 1896, 79–80.
—— Photographic and visual observations of Holmes' Comet. Astrophys. Jl., 3, 1896, 41–46.
—— Note on the table of measures of Saturn's ring. Observatory, London, 19, 1896, 276.
—— The November Leonids of 1896. [1896.] Astr. Jl., 17, 1897, 40.

—— On the comparison of reflector and portrait lens photographs. [1896.] Astr. Soc. Month. Not., 57, **1897**, 10–16.
—— Measures of the diameters of Mars and the positions of his satellites in 1894, made with the 36-inch equatorial of the Lick Observatory. Astr. Jl., 17, **1897**, 145–147.
—— The Gegenschein or zodiacal counterglow. Astr. Jl., 17, **1897**, 151–152.
—— On the third and fourth satellites of Jupiter. Astr. Nachr., 144, **1897**, 321–330.
—— An astronomical coincidence. [Note on comet comparison star.] Astr. Nachr., 144, **1897**, 331–332.
—— On an instrument for accurately photographing an unseen moving but known celestial body. Astr. Nachr., 144, **1897**, 331–332.
—— Physical and micrometrical observations of the planet Venus, made at the Lick Observatory with the 12-inch and 36-inch refractors. Astrophys. Jl., 5, **1897**, 299–304.
—— Astronomical photography with small lenses. Astrophys. Jl., 6, **1897**, 446–450.
—— Observations of the partial solar eclipse of 1897 July 29. [1897.] Astr. Jl., 18, **1898**, 23.
—— Photograph of an August meteor. [1897.] Astr. Jl., 18, **1898**, 28.
—— On the companions to Vega. [1897.] Astr. Jl., 18, **1898**, 46.
—— Small stars near Sirius. [1897.] Astr. Jl., 18, **1898**, 93.
—— The Leonids of 1897. [1897.] Astr. Jl., 18, **1898**, 107.
—— Nebulas near Castor. [1897.] Astr. Jl., 18, **1898**, 112.
—— The great nebula of Rho Ophiuchi and the smallness of the stars forming the ground work of the Milky Way. [1897.] Popular Astr., 5, **1898**, 227–232.
—— On the photography of meteors. [1897.] Popular Astr., 5, **1898**, 281–284.
—— A micrometrical determination of the dimensions of the planets and satellites of the solar system made with the 36-inch refractor of the Lick Observatory. [1897.] Popular Astr., 5, **1898**, 285–302.
—— Address [to the Math. & Astron. Sect.]. The development of photography in astronomy. Amer. Ass. Proc., **1898**, 19–51.
—— Another astronomical coincidence. [Note on comet comparison star.] Astr. Nachr., 145, **1898**, 237–238.
—— Note on some of the variable stars of the cluster Messier 5. From observations with the 40-inch refractor of the Yerkes Observatory. Astr. Nachr., 147, **1898**, 243–248.
—— The great nebula of Andromeda. Astrophys. Jl., 8, **1898**, 226–228.
—— Portrait-lens photographs. Astrophys. Jl., 8, **1898**, 240.
—— Observations of the companions of Procyon, and of β 883, made with the 40-inch refractor of the Yerkes Observatory. [1898.] Astr. Jl., 19, **1899**, 23–24.
—— Measures of the satellite of Neptune with the 40-inch refractor of the Yerkes Observatory, with remarks on the great telescope. [1898.] Astr. Jl., 19, **1899**, 25–29.
—— Filar-micrometer observations of Comet *c* 1898 (Coddington). [1898.] Astr. Jl., 19, **1899**, 55.
—— Micrometrical measures of double stars, made at the Lick Observatory. [1898.] Astr. Jl., 19, **1899**, 113–116.
—— New variable star (S.DM. 4° 5381), (1855.0 $21^h\ 3^m\ 22^s.7 - 4°\ 37'.4$). Astr. Jl., 19, **1899**, 193.
—— The variable star S Lyncis. Two new double stars. Anderson's variable near BD. +55°.3011. Astr. Nachr., 149, **1899**, 167–172.
—— Observations of the Leonid meteors of 1898. Astrophys. Jl., 9, **1899**, 151–156.
—— Photograph of the Milky Way near the star Theta Ophiuchi. Astrophys. Jl., 9, **1899**, 157–158.
—— Note on the exterior nebulosities of the Pleiades. Astr. Soc. Month. Not., 59, **1899**, 155.
— Photographs of comets and of the Milky Way. Astr. Soc. Month. Not., 59, **1899**, 354–370.
—— Observations of Hind's variable nebula in Taurus (N. G. C. 1555) made with the 40-inch refractor of the Yerkes Observatory. Astr. Soc. Month. Not., 59, **1899**, 372–376.
—— The Gegenschein or zodiacal counterglow. Popular Astr., 7, **1899**, 169–179, 290–291.
—— Triangulation of star clusters. Science, 10, **1899**, 789.
—— The fifth satellite of Jupiter. Science, 10, **1899**, 789–790.
—— Micrometrical measures of the satellite of Neptune during the opposition of 1898–99 with the 40-inch refractor of the Yerkes Observatory, with some remarks on temperature changes in the object-glass. [1899.] Astr. Jl., 20, **1900**, 41–44.
—— Micrometrical measures of the companions of Procyon, made with the 40-inch refractor of the Yerkes Observatory. [1899–1900.] Astr. Jl., 20, **1900**, 44; 21, **1901**, 16.

S. to the International Fisheries Exhibition, London, 1883, constituting a report upon the American section.] F. Catalogue of the collections of fishes exhibited by the United States National Museum. [1883.] U. S. Mus. Bull., 27, **1884**, 387–510.
—— The deep-sea fish, Malacosteus. Science, 3, **1884**, 747.
—— List of fishes collected by the U. S. Fish Commission at Wood's Holl, Massachusetts, during the summer of 1881. U. S. Fish Comm. Rep., 10, **1884**, 339–344.
—— Notes on a collection of fishes made in 1882 and 1883 by Capt. Henry E. Nichols, U. S. N., in Alaska and British Columbia, with a description of a new genus and species, Prionistius macellus. U. S. Mus. Proc., 6, **1884**, 353–361.
—— Notes on some fishes collected by James G. Swan in Washington Territory, including a new species of Macrurus. U. S. Mus. Proc., 6, **1884**, 362–364, [vii].
—— Notes on fishes observed at the head of Chesapeake Bay in the spring of 1882, and upon other species of the same region. U. S. Mus. Proc., 6, **1884**, 365–367.
—— Description of a new species of whitefish (Coregonus Nelsonii), from Alaska. [1884.] U. S. Mus. Proc., 7, **1885**, 48.
—— Descriptions of Physiculus fulvus and Lotella maxillaris, new species of fishes collected in 1881 by the United States Fish Commission. [1884.] U. S. Mus. Proc., 7, **1885**, 240–241.
—— On the occurrence of the striped bass in the lower Mississippi valley. [1884.] U. S. Mus. Proc., 7, **1885**, 242–244.
—— [The distribution of the Salmonidæ in Alaska.] [1884.] Washington Biol. Soc. Proc., 2, **1885**, lxi–lxiii.

—— [Salmon and trout of North America.] Science, 5, **1885**, 424.
—— Notes upon an exploration of Long Island Sound. U. S. Fish Comm. Bull., 5, **1885**, 33.
—— Description of a new species of Plectromus (P. crassiceps) taken by the United States Fish Commission. [1885.] U. S. Mus. Proc., 8, **1886**, 73–74.
—— Description of a new species of Aspidophoroides (A. Guentherii) from Alaska. [1885.] U. S. Mus. Proc., 8, **1886**, 74–75.
—— On the occurrence of Hadropterus aurantiacus (*Cope*) in the French Broad river, North Carolina. [1885.] U. S. Mus. Proc., 8, **1886**, 165–166.
—— On the identity of Cottus maculatus, *Fischer*, with Cottus bubalis, *Euphrasen*. [1885.] U. S. Mus. Proc., 8, **1886**, 166–167.
—— On Stathmonotus, a new genus of fishes related to Murænoides, from Florida. [1885.] U. S. Mus. Proc., 8, **1886**, 191–192.
—— Note on Stoasodon Narinari, *Euphrasen*. [1885.] U. S. Mus. Proc., 8, **1886**, 192–193.
—— Description of a new species of Pempheris (P. Poeyi) from Cuba. [1885.] U. S. Mus. Proc., 8, **1886**, 229–230.
—— Notes on Epinephelus nigritus, Caulolatilus microps, and Coryphæna hippurus. [1885.] U. S. Mus. Proc., 8, **1886**, 230–233.
—— Descriptions of five new species of fishes sent by Prof. A. Dugès from the province of Guanajuato, Mexico. [1887.] U. S. Mus. Proc., 10, **1888**, 370–375.
—— Distribution and some characters of the Salmonidæ. Amer. Natlist., 22, **1888**, 306–314.
—— Notes on a young red snapper (Lutjanus Blackfordi), from Great South Bay, Long Island. U. S. Mus. Proc., 10, **1888**, 512.
—— Description of a new species of Thyrsitops (T. violaceus) from the fishing-banks off the New England coast. U. S. Mus. Proc., 10, **1888**, 513–514.
—— Description of a supposed new species of char (Salvelinus aureolus), from Sunapee Lake, New Hampshire. U. S. Mus. Proc., 10, **1888**, 628–630.
—— Description of a new genus and species of fish, Acrotus Willoughbyi, from Washington Territory. U. S. Mus. Proc., 10, **1888**, 631–632.
—— Report on the fishes observed in Great Egg Harbour Bay, New Jersey, during the summer of 1887. U. S. Fish Comm. Bull., 7, **1889**, 129–154.
—— A hybrid between the lake trout and brook trout. U. S. Fish Comm. Bull., 7, **1889**, 216.
—— Description of Coregonus pusillus, a new species of whitefish from Alaska. U. S. Mus. Proc., 11, **1889**, 526.
—— Scientific results of explorations by the U. S. Fish Commission steamer *Albatross*. No. viii. Description of a new cottoid fish from British Columbia. [No. xi. New fishes collected off the coast of Alaska and the adjacent region southward.] [1889–90.] U. S. Mus. Proc., 12, **1890**, 641–642; 13, **1891**, 37–45.
—— Notes on fishes collected at Cozumel, Yucatan, by the U. S. Fish Commission, with descriptions of new species. U. S. Fish Comm. Bull., 8, **1890**, 193–206.
—— Report on the proposed introduction of the Jamaica mountain mullet into the United States. U. S. Fish Comm. Bull., 8, **1890**, 443–451.
—— Report on the salmon and salmon rivers of Alaska, with notes on the conditions, methods and needs of the salmon fisheries. U. S. Fish. Comm. Bull., 9, **1891**, 165–208.
—— Observations upon fishes and fish-culture. U. S. Fish Comm. Bull., 10, **1892**, 49–61.
—— Description of a new species of star-gazer (Cathetostoma albigutta) from the Gulf of Mexico. [1892.] U. S. Mus. Proc., 15, **1893**, 121–122.
—— Notes on fishes collected in Mexico by Prof. Alfredo Dugès, with descriptions of new species. [1892.] U. S. Mus. Proc., 15, **1893**, 283–287.
—— Life history of the salmon. [1893.] U. S. Fish Comm. Bull., 12, **1894**, 21–38.
—— Bibliography of the Salmonidæ of Alaska and adjacent regions. [1893.] U. S. Fish Comm. Bull., 12, **1894**, 39–49.
—— Description of a new blennioid fish from California. U. S. Mus. Proc., 16, **1894**, 699–701.
—— Description of a new species of rockfish, Sebastichthys brevispinis, from Alaska. U. S. Mus. Proc., 17, **1895**, 627–628.
—— Description of a new species of fish, Bleekeria Gilli. U. S. Mus. Proc., 17, **1895**, 629–630.
—— The Pacific salmon with notes on the habits of the young. N. Y. Ac. Trans., 15, **1896**, 182–188.
—— Notes upon New York fishes received at the New York Aquarium, 1895–97. Amer. Mus. Bull., 9, **1897**, 327–375.
—— Notes upon fishes received at the New York Aquarium, with description of a new species of snapper from Bermuda. Amer. Mus. Bull., 10, **1898**, 45–50.
—— Notes on Mexican fishes obtained by Dr. Carl Lumholtz. Amer. Mus. Bull., 10, **1898**, 165–168.
—— Fishes of the south shore of Long Island. Science, 9, **1899**, 52–55.
—— Identity of common and Labrador whitefish. Science, 9, **1899**, 416–417.
—— Report on the fishes of Long Island collected in the summer of 1898. N. Y. Mus. Rep., 52, **1900** (*Vol.* 1), r92–r111.
Bean, *Tarleton H[offman]*, & **Bean,** *Barton A[ppler]*. Description of Gobioides Broussoneti, a fish new to North America, from the Gulf of Mexico. U. S. Mus. Proc., 17, **1895**, 631–632.
—— [Contributions to the natural history of the Commander Islands. xii.] Fishes collected at Bering and Copper Islands by Nikolai A. Grebnitzki and Leonhard Stejneger. [1896.] U. S. Mus. Proc., 19, **1897**, 237–251.
—— Notes on fishes collected in Kamchatka and Japan by Leonhard Stejneger and Nikolai A. Grebnitzki, with a description of a new blenny. U. S. Mus. Proc., 19, **1897**, 381–392.
—— Description of a new blenny-like fish of the genus Opisthocentrus collected in Vulcano Bay, Port Mororan, Japan, by Nikolai A. Grebnitzki. [1897.] U. S. Mus. Proc., 20, **1898**, 463–464.
—— Note on Oxycottus acuticeps (*Gilbert*) from Sitka and Kadiak, Alaska. [1898.] U. S. Mus. Proc., 21, **1899**, 655–656.
Bean, *Tarleton H[offman]*, & **Dresel,** *H[erman] G[eorge]*. A catalogue of fishes received from the Public Museum of the Institute of Jamaica, with descriptions of Pristipoma approximans and Tylosurus euryops, 2 new species. [1884.] U. S. Mus. Proc., 7, **1885**, 151–170, [viii].
—— Diagnoses of three new species of fishes from the Gulf of Mexico. [1884.] Washington Biol. Soc. Proc., 2, **1885**, 99–100.

—— Zur Frage über den Ursprung des Hörnerven und über die physiologische Bedeutung des N. vestibularis. Neurol. Centrbl., 6, 1887, 193–198, 264.
—— Ueber die Trigeminuswurzeln. Neurol. Centrbl., 6, 1887, 289–290.
—— Die Bedeutung der Sehhügel auf Grund von experimentellen und pathologischen Daten. Virchow, Arch., 110, 1887, 102–154, 322–365.
—— Ueber die Bestandtheile des vorderen Kleinhirnschenkels. Arch. Anat. Physiol. (*Anat. Abth.*), 1888, 195–204.
—— Zur Frage über die secundären Degenerationen des Hirnschenkels. Arch. Psychiatr., 19, 1888, 1–17.
—— Paramyoclonus multiplex. Arch. Psychiatr., 19, 1888, 88–103.
—— Ueber die Erregbarkeit verschiedener Hirnbezirke bei neugeborenen Thieren. Neurol. Centrbl., 8, 1889, 513–521.
—— Ueber die Erscheinungen, welche die Durchschneidung der Hinterstränge des Rückenmarkes bei Thieren herbeiführt und über die Beziehungen dieser Stränge zur Gleichgewichtsfunction. Arch. Anat. Physiol. (*Physiol. Abth.*), 1889, 489–504.
—— Zur Frage über die Function des Kleinhirns. Neurol. Centrbl., 9, 1890, 354–359.
—— Ueber die Folgeerscheinungen der Zerstörung verschiedener Hirntheile neugeborener Thiere und über die Entwickelung ihrer Hirnfunctionen. Neurol. Centrbl., 9, 1890, 642–646.
—— Ueber die verschiedenen Lagen und Dimensionen der Pyramidenbahnen beim Menschen und den Thieren und über das Vorkommen von Fasern in denselben, welche sich durch eine frühere Entwickelung auszeichnen. Neurol. Centrbl., 9, 1890, 738–741; 10, 1891, 107.
—— Классификация душевныхъ болѣзней. [Classification of mental diseases.] Kazan Univ. Mem., 1891 (*Pt.* 4), 83–118, (*Pt.* 5), 57–78.
—— Zur Frage über die äusseren Associationsfasern der Hirnrinde. Neurol. Centrbl., 10, 1891, 682–684.
—— Zur Frage über die Blutcirculation im Hirn während epileptischer Anfälle, nach den Untersuchungen von Dr. Todorsky. Neurol. Centrbl., 10, 1891, 684–689.
—— Проводящіе пути мозга. [Different tracts of the medulla.] Kazan Univ. Mem., 1892 (*Pt.* 6), 123–166; 1893 (*Pt.* 1), 157–230, (*Pt.* 2), 50–128.
—— Ueber eine neue Untersuchungsmethode der Sehnenreflexe und über die Veränderungen letzterer bei Geisteskrankheiten und bei Epileptikern. Neurol. Centrbl., 11, 1892, 34–40.
—— Zur Frage über die Striæ medullares des verlängerten Markes. Neurol. Centrbl., 11, 1892, 297–305.
—— Ueber zeitliche Verhältnisse der psychischen Processe bei in Hypnose befindlichen Personen. Nach den Untersuchungen von E. Henika und B. Worotynski. Neurol. Centrbl., 11, 1892, 305–307.
—— Ueber neuro-psychische Störungen bei chronischem Ergotismus. Nach den Beobachtungen von Dr. N. Reformatzki. Neurol. Centrbl., 11, 1892, 769–775.
—— Ueber die Rindencentra Sphincteris ani et vesicæ. Nach den Versuchen von Dr. J. Meyer. Neurol. Centrbl., 12, 1893, 81–82.
—— Ueber den Einfluss der Suspension auf die Sehstörung bei Affectionen des Rückenmarkes. Nach den Untersuchungen von Dr. B. Worotynski. Neurol. Centrbl., 12, 1893, 210–217.
—— Ueber die Geschwindigkeitsveränderungen der psychischen Processe zu verschiedenen Tageszeiten. Nach den Untersuchungen von P. Ostankow und M. Gran. Neurol. Centrbl., 12, 1893, 290–292, 504.
—— Steifigkeit der Wirbelsäule und ihre Verkrümmung als besondere Erkrankungsform. Neurol. Centrbl., 12, 1893, 426–434.
—— Ueber die Wechselbeziehung zwischen der gewöhnlichen und sensoriellen Anästhesie (Functionsabnahme der Sinnesorgane) auf Grund klinischer und experimenteller Daten. [1892.] Neurol. Centrbl., 13, 1894, 252–256, 297–303.
—— Unaufhaltsames Lachen und Weinen bei Hirnaffectionen. [1893.] Arch. Psychiatr., 26, 1894, 791–817.
—— Ueber das Olivenbündel des cervicalen Theiles vom Rückenmark. Neurol. Centrbl., 13, 1894, 433–437.
—— Ueber die Schallleitung und Percussion der Schädelknochen und der Wirbelsäule als Untersuchungsmethode bei Nervenkrankheiten. Neurol. Centrbl., 13, 1894, 513–518.
—— Zur Frage über den Einfluss der Hirnrinde und der Sehhügel auf die Schluckbewegungen. Neurol. Centrbl., 13, 1894, 584–585.
—— Die sensiblen Bahnen im Rückenmark. Nach den Untersuchungen von Dr. F. Holzinger. Neurol. Centrbl., 13, 1894, 642.
—— Ueber pupillenverengernde Fasern. Neurol. Centrbl., 13, 1894, 802–807.
—— Ueber die Blutcirculation im Grosshirn während der Anfälle experimenteller Epilepsie. Nach den Beobachtungen von Dr. A. Todorski. Neurol. Centrbl., 13, 1894, 834–838.
—— Ueber die Bedeutung des gleichzeitigen Gebrauchs der

Bromide und der Adonis vernalis bei Epilepsie. Neurol. Centrbl., 13, 1894, 838–845.

—— Ueber die Schleifenschicht auf Grund der Resultate von nach der entwickelungsgeschichtlichen Methode ausgeführten Untersuchungen. Arch. Anat. Physiol. (*Anat. Abth.*), 1895, 379–395.

—— Ueber den Einfluss der traumatischen Entzündung der Hirnrinde auf die Erregbarkeit derselben. Neurol. Centrbl., 14, 1895, 2–3.

—— Ueber den Einfluss der durch die Stimmgabelschwingungen herbeigeführten Erschütterungen auf den menschlichen Organismus. Neurol. Centrbl., 14, 1895, 194–199.

—— Untersuchungen über die Genese der epileptischen Anfälle. Neurol. Centrbl., 14, 1895, 394–397.

— Der hintere Zweihügel als Centrum für das Gehör, die Stimme und die Reflexbewegungen. Neurol. Centrbl., 14, 1895, 706–712.

—— Ueber den Einfluss des Hungerns auf die neugeborenen Thiere, insbesondere auf das Gewicht und die Entwickelung des Gehirns. Neurol. Centrbl., 14, 1895, 810–817.

—— Ueber ein besonderes, intermediäres, in den Pyramidenseitenstrangbahnen befindliches Fasersystem. Neurol. Centrbl., 14, 1895, 929–932.

—— Ueber wenig bekannte Reflexerscheinungen bei Nervenkrankheiten und über die diagnostische Bedeutung des sog. Fussphänomens und der Sehnen- und Hautreflexveränderungen. Neurol. Centrbl., 14, 1895, 1157–1166.

—— Ueber die Empfindungen, welche mittels der sogenannten Gleichgewichtsorgane wahrgenommen werden, und über die Bedeutung dieser Empfindungen in Bezug auf die Entwickelung unserer Raumvorstellungen. Arch. Anat. Physiol. (*Physiol. Abth.*), 1896, 105–141.

—— Ueber syphilitische disseminirte, cerebrospinale Sklerose nebst Bemerkungen über die secundäre Degeneration der Fasern des vorderen Kleinhirnschenkels, des centralen Haubenbündels und der Schleifenschicht. Arch. Psychiatr., 28, 1896, 742–772.

—— Die Lehre von den Neuronen und die Entladungstheorie. (Untersuchungsresultate des Nervensystems nach der Golgi'schen Methode.) Neurol. Centrbl., 15, 1896, 50–57, 103–111.

—— Ueber das Kniescheibenphänomen als diagnostisches Kennzeichen von Nervenleiden und über andere verwandte Erscheinungen. Neurol. Centrbl., 15, 1896, 818–823.

— Ueber pathologische Empfindungen und Mitempfindungen bei Geisteskranken. Neurol. Centrbl., 15, 1896, 1058–1067.

—— Ueber die Kerne der mit den Augenbewegungen in Beziehung stehenden Nerven (des Oculomotorius, Abducens und Trochlearis) und über die Verbindung derselben unter einander. Arch. Anat. Physiol. (*Anat. Abth.*), 1897, 307–315.

—— Ueber das sog. Krampfcentrum und über das Centrum für die Locomotion im Niveau der Varolsbrücke. Neurol. Centrbl., 16, 1897, 146–151.

—— Die Erröthungsangst als eine besondere Form von krankhafter Störung. Neurol. Centrbl., 16, 1897, 386–391.

—— Ueber das besondere, mediale Bündel der Seitenstränge. Neurol. Centrbl., 16, 1897, 680–682.

— Neue Beobachtungen über die "Erröthungsangst." Neurol. Centrbl., 16, 1897, 985–989.

— — Zur Behandlung der Myotonie. Neurol. Centrbl., 16, 1897, 990–993.

— Ueber centrifugale, aus der Seh- und Vierhügelgegend ausgehende Rückenmarksbahnen. Neurol. Centrbl., 16, 1897, 1074–1077.

—— Ueber das Hören der eigenen Gedanken. [1897.] Arch. Psychiatr., 30, 1898, 284–294.

— — Ueber die Erregbarkeit der Grosshirnrinde neugeborener Thiere. Neurol. Centrbl., 17, 1898, 148–150.

— Die partielle Kreuzung der Sehnerven in dem Chiasma höherer Säugethiere. Neurol. Centrbl., 17, 1898, 199–202.

—— Ueber die Bedeutung der Cardiaca bei der Behandlung der Epilepsie. Neurol. Centrbl., 17, 1898, 290–294.

—— Ueber eine eigenartige psychopathische Form der Retentio urinæ. Neurol. Centrbl., 17, 1898, 834–840.

—— Ueber Störungen des Stoffwechsels bei Neurasthenie. Neurol. Centrbl., 17, 1898, 1029–1032.

—— Das elektrische Trichoœsthesiometer und die sog. Haarempfindlichkeit des Körpers. Neurol. Centrbl., 17, 1898, 1032–1035.

—— Epileptische und epileptoide Anfälle in Form von Angstzuständen. Neurol. Centrbl., 17, 1898, 1121–1124.

—— Ueber die Entwickelung der Zellelemente in der Grosshirnrinde des Menschen. [1896.] Neurol. Centrbl., 18, 1899, 770–772, 1072.

—— Untersuchungsergebnisse betreffend die Erregbarkeit des hinteren Abschnittes des Stirnlappens. Arch. Anat. Physiol. (*Physiol. Abth.*), 1899, 500–503.

—— Ueber die Gehörcentra der Hirnrinde. Arch. Anat. Physiol. (*Physiol. Abth.*). 1899 (*Suppl.*), 391–402.

—— Ueber die Lage der motorischen Rindencentren des Menschen nach Ergebnissen faradischer Reizung derselben bei Gehirnoperationen. Arch. Anat. Physiol. (*Physiol. Abth.*), 1899 (*Suppl.*), 543–546.

— Ein neues Algesimeter. Neurol. Centrbl., 18, 1899, 386–390.

—— Ueber unwillkürlichen Harnabgang beim Lachen. Neurol. Centrbl., 18, 1899, 447–448.

—— Ueber die sensiblen Functionen der sog. motorischen Rindenzone des Menschen. Arch. Anat. Physiol. (*Physiol. Abth.*), 1900, 22–24.

—— Ueber pupillenverengernde und pupillenerweiternde Centra in den hinteren Theilen der Hemisphärenrinde bei den Affen. Arch. Anat. Physiol. (*Physiol. Abth.*), 1900, 25–28.

—— Ueber die Localisation der Geschmackcentra in der Gehirnrinde. Arch. Anat. Physiol. (*Physiol. Abth.*), 1900 (*Suppl.*), 145–151.

—— Myotonie, eine Krankheit des Stoffwechsels. Neurol. Centrbl., 19, 1900, 98–102.

—— Ueber objective Symptome localer Hyperästhesie und Anæsthesie bei den sog. traumatischen Neurosen und bei Hysterie. Neurol. Centrbl., 19, 1900, 205–208, 388–389.

—— Ueber den Scapulo-Humeralreflex. Neurol. Centrbl., 19, 1900, 208–209.

—— Ueber pupillenverengernde und Accommodationscentra der Gehirnrinde. Neurol. Centrbl., 19, 1900, 386–388.

—— Ueber acut auftretende Störungen der Motilität mit den Merkmalen cerebellarer Ataxie bei Alkoholikern. Neurol. Centrbl., 19, 1900, 834–837.

—— Ueber die Bedeutung des Scapulo-Humeralreflexes. Neurol. Centrbl., 19, 1900, 1042–1045.

—— Ueber Zwangserbrechen. Neurol. Centrbl., 19, 1900, 1045–1048.

Bechterev, *V[ladimir Michajlovič]*, & **Mislavskij,** *N[ikolaj] A[leksandrovič]*. Ueber den Einfluss der Grosshirnrinde auf den Blutdruck und die Herzthätigkeit. Neurol. Centrbl., 5, 1886, 193–195.

—— Ueber den Einfluss der centralen Gehirntheile auf den Blutdruck und die Herzthätigkeit. Neurol. Centrbl., 5, 1886, 416–418.

—— Die Hirncentra für die Bewegung der Harnblase. Neurol. Centrbl., 7, 1888, 505–509.

—— Ornithological notes. Ibis, 3, **1891**, 510–514
—— On the structure of two new genera of earthworms belonging to the Eudrilidæ, and some remarks on Nemertodrilus. Quart. Jl. Micr. Sci., 32, **1891**, 235–278.
—— On the structure of an earthworm allied to Nemertodrilus, *Mich.*, with observations on the post-embryonic development of certain organs. Quart. Jl. Micr. Sci., 32, **1891**, 539–586.
— Preliminary notice of a new form of excretory organs in an oligochætous annelid. Roy. Soc. Proc., 49, **1891**, 308–310.
—— Contributions to the anatomy of the kagu (Rhinochetus jubatus). Zool. Soc. Proc., **1891**, 9–21.
—— On an earthworm of the genus Siphonogaster from West Africa. Zool. Soc. Proc., **1891**, 48–52.
—— On the pouch and brain of the male thylacine. Zool. Soc. Proc., **1891**, 138–145.
—— Preliminary account of an earthworm from West Africa referable to a new genus. Zool. Soc. Proc., **1891**, 172–176.
—— Notes on the anatomy of Dolichotis patagonica. Zool. Soc. Proc., **1891**, 236–244.
—— Additional notes upon Hapalemur griseus. Zool. Soc. Proc., **1891**, 449–461.
—— Anatomical description of two new genera of aquatic Oligochæta. [1890.] Edinb. Roy. Soc. Trans., 36, **1892**, 273–305.
—— On the anatomy of Ocnerodrilus (*Eisen*). [1891.] Edinb. Roy. Soc. Trans., 36, **1892**, 563–583.
—— Formation of a temporary cyst in the fresh-water annelid Æolosoma. [1891.] Nature, 45, **1892**, 28.
—— Warning colours. [1891.] Nature, 45, **1892**, 78.
—— Preliminary notice of a new branchiate oligochæte. [1891.] Nature, 45, **1892**, 109–110.
—— Note upon the encystment of Æolosoma. Ann. Mag. Nat. Hist., 9, **1892**, 12–19.
—— The earthworms of the Vienna Museum. Ann. Mag. Nat. Hist., 9, **1892**, 113–134.
—— On a new genus of Oligochæta, comprising five new species, belonging to the family Ocnerodrilidæ. Ann. Mag. Nat. Hist., 10, **1892**, 74–97.
—— A new branchiate oligochæte (Branchiura Sowerbyi). Quart. Jl. Micr. Sci., 33, **1892**, 325–341.
—— Researches into the embryology of the Oligochæta. No. I. On certain points in the development of Acanthodrilus multiporus. Quart. Jl. Micr. Sci., 33, **1892**, 497–540.
—— On some Perichætidæ from Japan. Zool. Jbüch. (*Syst.*), 6, **1892**, 755–766.
—— On the earthworms collected in Algeria and Tunisia by Dr. Anderson. Zool. Soc. Proc., **1892**, 28–37.
— On some species of the genus Perichæta (*sensu stricto*). Zool. Soc. Proc., **1892**, 153–172.
—— Notes on the anatomy and osteology of the Indian darter (Plotus melanogaster). Zool. Soc. Proc., **1892**, 291–296.
—— On some aquatic oligochætous worms. Zool. Soc. Proc., **1892**, 349–361.
—— On the brain and muscular anatomy of Aulacodus. Zool. Soc. Proc., **1892**, 520–527.
—— On the convolutions of the cerebral hemispheres in certain rodents. Zool. Soc. Proc., **1892**, 596–613.
— On some new species of earthworms from various parts of the world. Zool. Soc. Proc., **1892**, 666–706.

—— On the osteology, pterylosis, and muscular anatomy of the American fin-foot (Heliornis surinamensis). Ibis, 5, 1893, 30–40.
—— Two new genera and some new species of earthworms. Quart. Jl. Micr. Sci., 34, 1893, 243–278.
—— On the brain of the African elephant. Zool. Soc. Proc., 1893, 311–315.
—— On the atrium and prostate in the Oligochæta. Zool. Soc. Proc., 1893, 475–487.
—— On the geographical distribution of earthworms. Zool. Soc. Proc., 1893, 733–738.
—— Some new or little known Oligochæta. [1893.] Edinb. Phys. Soc. Proc., 12, 1894, 31–45.
—— Preliminary notice of South American Tubificidæ collected by Dr. Michaelsen, including the description of a branchiate form. Ann. Mag. Nat. Hist., 13, 1894, 205–210.
—— Another new branchiate oligochæte. Nature, 50 (1894), 20.
—— A contribution to our knowledge of the Oligochæta of tropical eastern Africa. Quart. Jl. Micr. Sci., 36, 1894, 201–270.
—— Notes upon the tadpole of Xenopus lævis (Dactylethra capensis). Zool. Soc. Proc., 1894, 101–107.
—— On two new genera, comprising three new species, of earthworms from western tropical Africa. Zool. Soc. Proc., 1894, 379–390.
—— On some points in the visceral anatomy of Ornithorhynchus. Zool. Soc. Proc., 1894, 715–722.
—— A contribution to the anatomy of Sutroa. [1892.] Edinb. Roy. Soc. Trans., 37, 1895, 195–202.
—— Contributions to the anatomy of the anthropoid apes. [1892.] Zool. Soc. Trans., 13, 1895, 177–218.
—— The former northward extension of the Antarctic continent. [1895.] Nature, 53 (1895–96), 129.
—— On the visceral anatomy and brain of Dendrolagus Bennetti. Zool. Soc. Proc., 1895, 131–137.
—— On the brain of Gulo. Zool. Soc. Proc., 1895, 139–142.
—— On the brain in the lemurs. Zool. Soc. Proc., 1895, 142–148.
—— Preliminary account of new species of earthworms belonging to the Hamburg Museum. Zool. Soc. Proc., 1895, 210–239.
—— On the visceral and muscular anatomy of Cryptoprocta ferox. Zool. Soc. Proc., 1895, 430–437.
—— On some points in the anatomy of Pipa americana. Zool. Soc. Proc., 1895, 827–841.
—— On the diaphragm and on the muscular anatomy of Xenopus, with remarks on its affinities. Zool. Soc. Proc., 1895, 841–850.
—— On some earthworms from the Sandwich Islands collected by Mr. R. L. Perkins; with an appendix on some new species of Perichæta, etc. Zool. Soc. Proc., 1896, 194–211.
—— On the oblique septa ("diaphragm" of Owen) in the passerines and in some other birds. Zool. Soc. Proc., 1896, 225–231.
—— A note upon Dissura episcopus, with remarks on the classification of the Herodiones. Zool. Soc. Proc., 1896, 231–235.
—— A contribution to the knowledge of the anatomy of Rhynchops. Zool. Soc. Proc., 1896, 299–303.
—— On the anatomy of a grebe (Æchmophorus major), with remarks upon the classification of some of the schizognathous birds. Zool. Soc. Proc., 1896, 538–547.
—— [On the structure and distribution of birds.] Nature, 56 (1897), 36.
—— Notes upon the anatomy of a manatee (Manatus inunguis) lately living in the Society's Gardens. Zool. Soc. Proc., 1897, 47–53.
—— Notes upon the anatomy of Phaëthon. Zool. Soc. Proc., 1897, 288–295.
—— On a collection of earthworms from South Africa, belonging to the genus Acanthodrilus. Zool. Soc. Proc., 1897, 336–349.
—— Note upon intercentra in the vertebral column of birds. Zool. Soc. Proc., 1897, 465–472.
—— On the anatomy of an Australian cuckoo, Scythrops Novæ-Hollandiæ. Zool. Soc. Proc., 1898, 44–49.
—— On certain points in the anatomy of the cunning bassarisc, Bassariscus astutus. Zool. Soc. Proc., 1898, 129–131.
—— On a hybrid between a male guinea-fowl and a female domestic fowl with some observations on the osteology of the Numididæ. Ibis, 5, 1899, 333–344.
—— A note upon phosphorescent earthworms. Nature, 60 (1899), 52.
—— Notes on the anatomy of the genus Apteryx. Novitates Zool., 6, 1899, 386–402.
—— A contribution to our knowledge of the cerebral convolutions of the gorilla. Zool. Soc. Proc., 1899, 65–76.
—— On the brain of Hydrochœrus. Zool. Soc. Proc., 1899, 798–803.
—— Vibrissæ on the forepaws of mammals. Nature, 62 (1900), 523.
—— On a species of earthworm from western tropical Africa, belonging to the genus Benhamia. Zool. Soc. Proc., 1900, 167–173.
—— On the brain of a siamang (Hylobates syndactylus). Zool. Soc. Proc., 1900, 187–190.
—— A revision of the earthworms of the genus Amyntas (Perichæta). Zool. Soc. Proc., 1900, 609–652.
—— On the structure of a new species of earthworm of the genus Benhamia. Zool. Soc. Proc., 1900, 653–659.
—— On the anatomy of Bassaricyon Alleni. Zool. Soc. Proc., 1900, 661–675.
—— On the earthworms collected during the "Skeat Expedition" to the Malay Peninsula, 1899–1900. Zool. Soc. Proc., 1900, 891–911.
—— On a new species of earthworm from India belonging to the genus Amyntas. Zool. Soc. Proc., 1900, 998–1002.

—— Sur l'absorption des matières salines par les végétaux: sulfate de potasse. [Acétate et azotate de potasse.] Paris, Ac. Sci. C. R., 106, 1888, 801–805, 902–906; Paris Soc. Chim. Bull., 50, 1888, 26–30; Ann. Chim., 16, 1889, 5–21.

—— Remarques sur le dosage de l'azote dans la terre végétale. Paris, Ac. Sci. C. R., 107, 1888, 207–209.

— Nouvelles expériences sur le dosage de l'azote dans les terres végétales. Paris, Ac. Sci. C. R., 107, 1888, 852–854.

— Sur la chaleur de formation et sur les réactions de l'hydroxylamine ou oxyammoniaque. Paris, Ac. Sci. C. R., 110, 1890, 830–836; Ann. Chim., 21, 1890, 384–397; Paris Soc. Chim. Bull., 4, 1890, 238–241.

—— Sur les chaleurs de formation et de combustion de divers principes azotés, dérivés des matières albuminoïdes. Paris, Ac. Sci. C. R., 110, 1890, 884–889; Paris Soc. Chim. Bull., 4, 1890, 225–228; Ann. Chim., 22, 1891, 5–17.

—— Chaleur de combustion des principaux composés azotés contenus dans les êtres vivants et son rôle dans la production de la chaleur animale. Paris, Ac. Sci. C. R., 110, 1890, 925–934; Paris Soc. Chim. Bull., 4, 1890, 230–234; Ann. Chim., 22, 1891, 25–52.

— Sur le dosage des matières minérales contenues dans la terre végétale et sur leur rôle en agriculture. Paris, Ac. Sci. C. R., 112, 1891, 117–121; Paris Soc. Chim. Bull., 5, 1891, 569–572; Ann. Chim., 25, 1892, 289–313.

—— Sur la présence et sur le rôle du soufre dans les végétaux. Paris, Ac. Sci. C. R., 112, 1891, 122–125; Paris Soc. Chim. Bull., 5, 1891, 572–574; Ann. Chim., 25, 1892, 341–363.

—— Faits pour servir à l'histoire des principes azotés renfermés dans la terre végétale. Paris, Ac. Sci. C. R., 112, 1891, 189–194; Paris Soc. Chim. Bull., 5, 1891, 643–646; Ann. Chim., 25, 1892, 314–330.

— Sur l'odeur propre de la terre. Paris, Ac. Sci. C. R., 112, 1891, 598–599; Paris Soc. Chim. Bull., 5, 1891, 575; Ann. Chim., 25, 1892, 334–336.

— Recherches sur les substances humiques. Paris, Ac. Sci. C. R., 112, 1891, 916–922; Ann. Chim., 25, 1892, 364–403; Paris Soc. Chim. Bull., 7, 1892, 441–446.

—— Recherches calorimétriques sur l'acide humique, dérivé du sucre. Paris, Ac. Sci. C. R., 112, 1891, 1237–1245; Ann. Chim., 25, 1892, 403–420; Paris Soc. Chim. Bull., 7, 1892, 446–451.

—— Sur le pouvoir absorbant de la terre et sur la fixation des sels ammoniacaux et des phosphates par l'acide humique. Ann. Chim., 27, 1892, 196–202.

—— Sur l'oxydation spontanée de l'acide humique et de la terre végétale. Paris, Ac. Sci. C. R., 114, 1892, 41–43; Ann. Chim., 25, 1892, 420–422; Paris Soc. Chim. Bull., 7, 1892, 451–453.

—— Quelques observations nouvelles sur le dosage du soufre dans la terre végétale, et sur la nature des composés qu'il constitue. Paris, Ac. Sci. C. R., 114, 1892, 43–46; Ann. Chim., 25, 1892, 336–341; Paris Soc. Chim. Bull., 7, 1892, 435–437.
—— Sur la silice dans les végétaux. Paris, Ac. Sci. C. R., 114, 1892, 257–263; Ann. Chim., 27, 1892, 145–164; Paris Soc. Chim. Bull., 7, 1892, 437–441.
—— Sur la fermentation du sang. Paris, Ac. Sci. C. R., 114, 1892, 514–520; Ann. Chim., 27, 1892, 165–195, 574; Paris Soc. Chim. Bull., 7, 1892, 453–457.
—— Sur les matières organiques constitutives du sol végétal. Paris, Ac. Sci. C. R., 116, 1893, 666–672; Ann. Chim., 1, 1894, 273–288; Paris Soc. Chim. Bull., 11, 1894, 771–781.
—— Études sur la formation de l'acide carbonique et l'absorption de l'oxygène par les feuilles détachées des plantes: réactions purement chimiques. [Expériences faites à la température ordinaire, avec le concours des actions biologiques.] Paris, Ac. Sci. C. R., 118, 1894, 45–54, 104–112; Ann. Chim., 2, 1894, 293–339; Paris Soc. Chim. Bull., 11, 1894, 793–810.
—— Sur l'existence, dans les végétaux, de principes dédoublables avec production d'acide carbonique. Paris, Ac. Sci. C. R., 119, 1894, 711–714.
—— Sur la présence de l'alumine dans les plantes et sur sa répartition. Paris, Ac. Sci. C. R., 120, 1895, 288–290; Ann. Chim., 5, 1895, 429–432.
—— Nouvelles recherches sur la marche générale de la végétation. Ann. Chim., 9, 1896, 5–119, 145–229.
—— Recherches sur la volatilité de l'acide lévulique. Paris, Ac. Sci. C. R., 123, 1896, 341–343; Ann. Chim., 11, 1897, 66–71.
—— Sur les réactions exercées à froid entre l'acide phosphorique et l'éther, en présence de l'eau. Coefficients de partage. Paris, Ac. Sci. C. R., 123, 1896, 344–349; Ann. Chim., 11, 1897, 210–217.
—— Nouvelles recherches relatives à la décomposition des sucres sous l'influence des acides et spécialement à la production de l'acide carbonique. Paris, Ac. Sci. C. R., 123, 1896, 567–580; Ann. Chim., 11, 1897, 150–175.
—— Recherches sur l'arabinose. Paris, Ac. Sci. C. R., 123, 1896, 625–631; Ann. Chim., 11, 1897, 175–184.
—— Recherches sur l'acide phosphorique: dosage de l'acide pyrophosphorique. Paris, Ac. Sci. C. R., 123, 1896, 773–776; Ann. Chim., 11, 1897, 184–189.
—— Transformations de l'acide pyrophosphorique. Paris, Ac. Sci. C. R., 123, 1896, 776–782; Ann. Chim., 11, 1897, 197–204.
—— Sur les pyrophosphates magnésiens simples et complexes. Ann. Chim., 11, 1897, 190–197.
—— Nouvelles recherches sur le dosage de l'acide pyrophosphorique. Paris, Ac. Sci. C. R., 124, 1897, 261–265.
—— Faits pour servir à l'histoire de l'acide métaphosphorique. Paris, Ac. Sci. C. R., 124, 1897, 265–269; Ann. Chim., 11, 1897, 204–210; Paris Soc. Chim. Bull., 17, 1897, 434.
—— Sur les transformations des sucres et sur l'acide lévulique. Paris, Ac. Sci. C. R., 124, 1897, 645–648; Ann. Chim., 11, 1897, 71–78.
—— Nouvelles recherches sur les chaleurs de formation et de combustion de divers composés azotés et autres. Paris, Ac. Sci. C. R., 128, 1899, 959–971; Ann. Chim., 17, 1899, 433–451.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Delépine,** *Marcel.* Sur l'azotate d'argent ammoniacal. Paris, Ac. Sci. C. R., 129, 1899, 326–330.
—— Recherches sur les dérivés métalliques de l'acétylène. Paris, Ac. Sci. C. R., 129, 1899, 361–378, 422; Ann. Chim., 19, 1900, 5–54.
—— L'acide lactique. [Thermochimie.] Paris, Ac. Sci. C. R., 129, 1899, 920–926, 1047; Ann. Chim., 20, 1900, 149–158.
— Sur l'iodure de cuprosacétyle. Ann. Chim., 19, 1900, 54–56.
—— Sur l'azotate d'argent ammoniacal et sur l'argentammonium. Ann. Chim., 19, 1900, 57–65.
—— Sur la chaleur de combustion de quelques liquides très volatils. Paris, Ac. Sci. C. R., 130, 1900, 1045–1049; Ann. Chim., 21, 1900, 289–296.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Engel,** *R*[*odolphe Charles*]. Recherches thermiques sur les états allotropiques de l'arsenic. Paris, Ac. Sci. C. R., 110, 1890, 498–499; Ann. Chim., 21, 1890, 284–288; Paris Soc. Chim. Bull., 4, 1890, 238.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Fabre,** *Charles.* Sur les divers états du tellure. Paris, Ac. Sci. C. R., 104, 1887, 1405–1408; Paris Soc. Chim. Bull., 48, 1887, 692–694.
—— Chaleur de formation de l'acide tellurhydrique. Paris, Ac. Sci. C. R., 105, 1887, 92–95; Paris Soc. Chim. Bull., 48, 1887, 694–695.
—— Recherches thermiques sur le tellure et ses dérivés. I. Les divers états du tellure. [III. Acide tellurhydrique. IV. Chaleur de formation de l'acide tellurhydrique.] Ann. Chim., 14, 1888, 92–101, 103–106, 106–109.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Fogh,** *J*[*ohann*]. Chaleur de formation de quelques amides. Paris, Ac. Sci. C. R., 111, 1890, 144–146; Paris Soc. Chim. Bull., 4, 1890, 229–230; Ann. Chim., 22, 1891, 18–24.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Friedel,** *Charles.* Sur le fer météorique de Magura, Arva (Hongrie). Paris, Ac. Sci. C. R., 111, 1890, 296–300.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Guntz,** *A*[*ntonin*]. Sur les déplacements réciproques entre l'acide fluorhydrique et les autres acides. Paris, Ac. Sci. C. R., 98, 1884, 395–399; Ann. Chim., 3, 1884, 355–362; Paris Soc. Chim. Bull., 41, 1884, 578–582.
— Sur les équilibres entre les acides chlorhydrique et fluorhydrique. Paris, Ac. Sci. C. R., 98, 1884, 463–467; Ann. Chim., 3, 1884, 362–368; Paris Soc. Chim. Bull., 41, 1884, 582–586.
—— Sur l'absorption du chlore par le charbon et sur sa combinaison avec l'hydrogène. Paris, Ac. Sci. C. R., 99, 1884, 7–8; Jl. Pharm., 11, 1885, 545–546; Ann. Chim., 7, 1886, 138–142.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Le Chatelier,** *Henry* [*Louis*]. Sur la vitesse de détonation de l'acétylène. Paris, Ac. Sci. C. R., 129, 1899, 427–434; Ann. Chim., 20, 1900, 15–26.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Luginin,** *Vl*[*adimir F.*]. Chaleurs de combustion. Paris, Ac. Sci. C. R., 104, 1887, 1574–1577; Paris Soc. Chim. Bull., 48, 1887, 700–702; Ann. Chim., 13, 1888, 321–339.
Berthelot, *Marcellin* [*Pierre Eugène*], & **Matignon,** *Camille.* Chaleur de combustion de quelques composés sulfurés. Paris, Ac. Sci. C. R., 111, 1890, 9–11; Paris Soc. Chim. Bull., 4, 1890, 251–253; Ann. Chim., 22, 1891, 177–186.
—— Recherches sur quelques principes sucrés. Paris, Ac. Sci. C. R., 111, 1890, 11–14; Ann. Chim., 21, 1890, 409–416; Paris Soc. Chim. Bull., 4, 1890, 248–250.
—— Sur la chaleur de combustion et de formation des corps chlorés. Paris, Ac. Sci. C. R., 112, 1891, 1102–1107; Ann. Chim., 23, 1891, 507–538.
—— Recherches sur la série camphénique. Paris, Ac. Sci. C. R., 112, 1891, 1161–1170; Ann. Chim., 23, 1891, 538–563.
—— Chaleurs de combustion et de formation des benzines nitrées. Paris, Ac. Sci. C. R., 113, 1891, 246–249; Ann. Chim., 27, 1892, 304–310; Paris Soc. Chim. Bull., 7, 1892, 427–430.
—— Sur la chaleur de formation de l'hydrazine et de l'acide azothydrique. Paris, Ac. Sci. C. R., 113, 1891, 672–679, 758; Ann. Chim., 27, 1892, 289–302; Paris Soc. Chim. Bull., 7, 1892, 423–425.

—— Chaleur de neutralisation de l'acide hippurique. Ann. Chim., 27, 1892, 303.
—— Sur les chaleurs de combustion et de formation de l'alcool et des acides formique et acétique. Paris, Ac. Sci. C. R., 114, 1892, 1145–1149; Ann. Chim., 27, 1892, 310–319; Paris Soc. Chim. Bull., 7, 1892, 425–427.
—— Chaleur de combustion de divers composés chlorés. Paris, Ac. Sci. C. R., 115, 1892, 347–350; Ann. Chim., 28, 1893, 565–574.
—— Sur l'acide glycoxylique ou dioxyacétique. Paris, Ac. Sci. C. R., 115, 1892, 350–353; Ann. Chim., 28, 1893, 139–144.
—— Données thermochimiques. Paris Soc. Chim. Bull., 7, 1892, 430.
—— Sur le nitrométhane et ses homologues. Ann. Chim., 30, 1893, 565–572; Paris Soc. Chim. Bull., 11, 1894, 867–870 [*Part only*].
—— Sur la chaleur de combustion des principaux gaz hydrocarbonés. Paris, Ac. Sci. C. R., 116, 1893, 1333–1339; Ann. Chim., 30, 1893, 547–565; Paris Soc. Chim. Bull., 11, 1894, 738–741.
—— Sur l'azoture de baryum. Ann. Chim., 2, 1894, 144.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Moissan,** *Henri.* Chaleur de combinaison du fluor avec l'hydrogène. Paris, Ac. Sci. C. R., 109, 1889, 209–210; Paris Soc. Chim. Bull., 2, 1889, 647–648; Ann. Chim., 23, 1891, 570–574.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Ogier,** *Jules.* Recherches sur les hypoazotites. Ann. Chim., 4, 1885, 230–247.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Petit,** *P*[*aul*]. Sur la chaleur de formation de l'hydrogène antimonié. Paris, Ac. Sci. C. R., 108, 1889, 546–550; Ann. Chim., 18, 1889, 65–80; Paris Soc. Chim. Bull., 2, 1889, 87–90.
—— Chaleur de combustion du carbone sous ses divers états: diamant, graphite, carbone amorphe. Paris, Ac. Sci. C. R., 108, 1889, 1144–1148; Ann. Chim., 18, 1889, 80–106.
—— Sur les chaleurs de combustion et de formation des nitriles. Paris, Ac. Sci. C. R., 108, 1889, 1217–1222; Ann. Chim., 18, 1889, 107–140; Paris Soc. Chim. Bull., 2, 1889, 164–166.
—— Recherches thermiques sur les camphres nitrés isomériques et sur le camphre cyané. Paris, Ac. Sci. C. R., 109, 1889, 92–95; Paris Soc. Chim. Bull., 2, 1889, 644–647; Ann. Chim., 20, 1890, 5–12.
—— Sur la chaleur animale et sur les chaleurs de formation et de combustion de l'urée. Paris, Ac. Sci. C. R., 109, 1889, 759–764; Ann. Chim., 20, 1890, 13–20; Paris Soc. Chim. Bull., 3, 1890, 329–331 [*Part only*].
—— Sur les différents états des carbones-graphites et sur les dérivés chimiques qui leur correspondent. Paris, Ac. Sci. C. R., 110, 1890, 101–106; Ann. Chim., 20, 1890, 20–46; Paris Soc. Chim. Bull., 3, 1890, 336–340.
—— Chaleur de combustion et de formation des oxydes graphitiques et pyrographitiques. Paris, Ac. Sci. C. R., 110, 1890, 106–109; Ann. Chim., 20, 1890, 46–56.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Recoura,** *A*[*lbert*]. Sur la bombe calorimétrique et la mesure des chaleurs de combustion. Paris, Ac. Sci. C. R., 104, 1887, 875–880; Paris Soc. Chim. Bull., 48, 1887, 697–700.
—— Chaleurs de combustion. Paris, Ac. Sci. C. R., 104, 1887, 1571–1574.
—— Sur le passage entre la série aromatique et la série grasse. Paris, Ac. Sci. C. R., 105, 1887, 141–145; Paris Soc. Chim. Bull., 48, 1887, 702–704; Ann. Chim., 13, 1888, 340–344.
—— Sur la mesure des chaleurs de combustion. Ann. Chim., 13, 1888, 289–304.
—— Chaleurs de combustion de divers composés organiques. Ann. Chim., 13, 1888, 304–320.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Rivals,** *Paul.* Nouvelles recherches sur les relations thermochimiques entre les aldéhydes, les alcools et les acides. Paris, Ac. Sci. C. R., 120, 1895, 1086–1095; Ann. Chim., 7, 1896, 29–47.
—— Sur les lactones ou olides camphoréniques. Paris, Ac. Sci. C. R., 120, 1895, 1390–1391; Ann. Chim., 7, 1896, 47–50.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Vieille,** *Paul.* Sur le séléniure d'azote. Ann. Chim., 1, 1884, 91.
—— Recherches sur les mélanges gazeux détonants. Paris, Ac. Sci. C. R., 98, 1884, 545–550; Paris Soc. Chim. Bull., 41, 1884, 554–558; Ann. Chim., 4, 1885, 13–17.
—— Mélanges gazeux détonants. Calcul des températures et des chaleurs spécifiques. Paris, Ac. Sci. C. R., 98, 1884, 601–606; Ann. Chim., 4, 1885, 59–66.
—— Vitesse relative de combustion des mélanges gazeux détonants. Paris, Ac. Sci. C. R., 98, 1884, 646–651; Paris Soc. Chim. Bull., 41, 1884, 575–578; Ann. Chim., 4, 1885, 39–48.
—— Influence de la densité des mélanges gazeux détonants sur la pression. Mélanges isomères. Paris, Ac. Sci. C. R., 98, 1884, 705–711; Paris Soc. Chim. Bull., 41, 1884, 558–561; Ann. Chim., 4, 1885, 48–59.
—— Sur la chaleur spécifique des éléments gazeux, à de très hautes températures. Paris, Ac. Sci. C. R., 98, 1884, 770–775; Paris Soc. Chim. Bull., 41, 1884, 561–566; Ann. Chim., 4, 1885, 66–74.
—— Sur les chaleurs spécifiques de l'eau et de l'acide carbonique à de très hautes températures. Paris, Ac. Sci. C. R., 98, 1884, 852–858; Paris Soc. Chim. Bull., 41, 1884, 566–570; Ann. Chim., 4, 1885, 74–84.
—— Nouvelle méthode pour la mesure de la chaleur de combustion du charbon et des composés organiques. Paris, Ac. Sci. C. R., 99, 1884, 1097–1103; Ann. Chim., 6, 1885, 546–556; Paris Soc. Chim. Bull., 43, 1885, 262–265.
—— Recherches sur les mélanges gazeux détonants: de la pression développée. Ann. Chim., 4, 1885, 29–39.
—— Sur les chaleurs de combustion et de formation des carbures d'hydrogène solides. Paris, Ac. Sci. C. R., 102, 1886, 1211–1217; Ann. Chim., 10, 1887, 433–455; Paris Soc. Chim. Bull., 47, 1887, 863–867.
—— Chaleur de combustion et de formation des sucres, hydrates de carbone et alcools polyatomiques congénères. Paris, Ac. Sci. C. R., 102, 1886, 1284–1286; Ann. Chim., 10, 1887, 455–463; Paris Soc. Chim. Bull., 47, 1887, 867–870.
—— Recherches sur quelques sels de l'acide azothydrique. Ann. Chim., 2, 1894, 339–351; Paris Soc. Chim. Bull., 11, 1894, 744–748 [*Part only*].
—— Recherches sur les propriétés explosives de l'acétylène. Paris, Ac. Sci. C. R., 123, 1896, 523–530; Ann. Chim., 11, 1897, 5–15; 13, 1898, 5.
—— Sur les dissolutions d'acétylène et sur leurs propriétés explosives. Paris, Ac. Sci. C. R., 124, 1897, 988–996; Ann. Chim., 13, 1898, 6–18.
—— Remarques sur la décomposition explosive des dissolutions d'acétylène. Paris, Ac. Sci. C. R., 124, 1897, 996–1000; Ann. Chim., 13, 1898, 18–23.
—— Sur quelques conditions de propagation de la décomposition de l'acétylène pur. Paris, Ac. Sci. C. R., 124, 1897, 1000–1004; Ann. Chim., 13, 1898, 24–29.
—— Sur l'aptitude explosive de l'acétylène mélangé à des gaz inertes. Paris, Ac. Sci. C. R., 128, 1899, 777–787; Ann. Chim., 17, 1899, 303–320.

Berthelot, *Marcellin* [*Pierre Eugène*], & **Werner,** *E*[*ugenij Valerianovič*]. Sur les substitutions bromées. Paris, Ac. Sci. C. R., 98, 1884, 1213–1218; Ann. Chim., 3, 1884, 551–566; Paris Soc. Chim. Bull., 43, 1885, 148–153.
—— Recherches sur l'isomérie dans la série aromatique. Chaleur de neutralisation des phénols polyatomiques. [Chaleur de neutralisation des acides oxybenzoïques. Sur les acides oxybenzoïques et sur leur chaleur de

formation et de transformation.] Paris, Ac. Sci. C. R., 100, 1885, 586–591, 1568–1570; 101, 1885, 290–296; Paris Soc. Chim. Bull., 43, 1885, 539–543; 45, 1886, 61–63, 63–67; Ann. Chim., 7, 1886, 103–116, 145–153, 153–168.
